On The Wing: We had no scheduled Quarterly Conference for the past Sunday, but went visiting preparatory to the great fall rally at Paul Quinn College and the launching of our Dollar Money Campaign for the Annual Conference.

Wednesday we were in Austin, visited the Attorney General's office, the Commissioner of Insurance and Secretary of State Department. In each of the departments we got much helpful information—the reports and laws on all corporations, with the forms of charters and the fee for the same. While in Austin, we were entertained by the matchless Dr. S. D. Butler, the aggressive and efficient pastor of the Metropolitan A. M. E. church. We were conveyed around in the car of Dr. Abner, and that mogul machine of Dr. S. D. Butler, the candidate for the bishopric of Dr. Butler, is meeting all opposition as a giant and will give a round account of his successful manipulation of church affairs. All eyes are upon Austin with good wishes.

From Austin to Houston—There we were entertained Thursday evening and the night was spent in the palatial mansion of Attorney and Mrs. McCoy. Mrs. McCoy is the Madame N. A. Franklin-McCoy, whose many brains has given to the public ten most important articles in hair growing and beauty culture. Her Headquarters is Houston is wonderful; her home a palace of solid comfort. Mr. McCoy is fast developing a plan for a great manufacturing plant for all of the Madame Franklin articles and a school of instruction. Mr. and Mrs. McCoy's mansion is furnished with the latest models of furniture.

Friday evening the purpose of our trip was realized when we met the gifted Dr. G. B. Young and his estimable wife, and were safely quartered in their home, the mansion of great Wesley Chapel A. M. E. church. Hearing and seeing are two different things. Having heard, I thought that I would see, and did see.

Sunday morning there were 180 pupils in the Sunday School. At the eleven o'clock service there, is where we got a glimpse of the wise leadership of Dr. Young as one of Texas' greatest pastors.

At 3:00 p. m. we preached for Dr. H. A. Carr, and the Rev. G. W. Hamilton in St. Paul A. M. E. church. At 7:30 p. m. we were in the evening service of the great Allen League of Wesley Chapel A. M. E. church. From this great service we were greatly inspired for the evening service of the church. At 8 p. m. we were again presented to a packed audience and we tried to please the many hundreds. The demonstration as each service gained the evidence: six persons joined the church.

Monday was Class Meeting—an accident in the power-house of the electric light system put the city in total darkness. Not a street light nor a light of the electric light system was burning in any of the homes. This accident happened just a little before the hour for the opening of the service for the class meeting, but the officers and members got candles and coal oil lamps from the houses nearest the church and these furnished light for the service. It was indeed a pleasure and an inspiration to open the service for the class meeting. The leaders knew where and when to take a hold of the meeting; and they did take a hold. Oh! my, what a wonderful meeting! A happy class leaders reported for forty classes represented in the meeting. Dr. Young is having great success in Wesley. They are going to give him a car and then send him to Africa. The entertainment of Dr. Young and his good wife can never be forgotten for as usual Mrs. Young never thins in service for her or the Doctor's good.

There are 60 Negroes employed in the Houston post office; 46 regular Negroes; 8 subcontractors; 2 janitors and 4 porters; two Negro messengers and a porter and one on duty at this time to go out to the blackmen and gentlemen of the postoffice.

We are back on the job and will be at Sunday next Sunday. But wait! we cannot and must not allow this time without making mention of the fact that we will be at the Dallas Express representative. I de-
